Famed for its amazing underwater coral formations and year-round, pristine waters, the Phi Phi Islands lie some 48 km east of Phuket and 42 km south of Krabi. A wide range of Resort facilities allows numerous activities, while delightful days can be spent exploring the many bays and coves of Phi Phi, the deserted beaches and neighbouring, uninhabited islands. On Phi Phi, starting right at the Resort, you can trek through lush coconut groves to other parts of the island, or take boat tours through the waterways with their stunning, stone monoliths rising sharply from the sea. Nearby Bamboo Island is surrounded by stunningly clear waters, white sands and colourful coral reefs that are ideal for snorkelling and swimming. At Phi Phi Palm Beach Resort, the possibilities for escape go on and on...
